Subject: Microsoft Settlement

To whom it may concern: I have purchased many Microsoft products over the years. I do so because I believe Microsoft's products are superior to other products. I don't believe that I have been overcharged. Microsoft has been unfairly drawn into a lawsuit because they manufacture a product line that their competition is unable to compete with. Microsoft has competitors who each year spend billions of dollars trying to develop a product that will compete with Microsoft's products. No one is forced to buy Microsoft products obviously Microsoft has grown to one of the world's largest companies because of customer satisfaction. Please settle the lawsuit against Microsoft and let an innovative company get back to what they do best without the burden of an anti-trust lawsuit burdening the company. Concerned consumer Ernest Wood
